## OTHER HAZARDS AFFECTING LAND AREAS

**Heavy Rainfall Outlook**
Refer to **Weather Advisory No. 34 issued at 5:00 AM today** for the heavy rainfall outlook due to the Southwest Monsoon.

**Severe Winds**
The Southwest Monsoon will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today (31 August):** Most of the country.
- **Tomorrow (01 September) until Tuesday (02 September):** Most of Luzon and Visayas, Zamboanga del Norte, Misamis Occidental, Lanao del Norte, Misamis Oriental, Camiguin, Dinagat Islands, Davao Occidental, and Davao Oriental.

## HAZARDS AFFECTING COASTAL WATERS

**24-Hour Sea Condition Outlook**

**Up to very rough seas over the following coastal waters:**

- **Up to 4.5 m**: The western seaboard of Babuyan Islands.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

**Up to rough seas over the following coastal waters:**

- **Up to 4.0 m**: The seaboards of Batanes and northern Ilocos Sur; the northern seaboard of Babuyan Islands; the western seaboard of Ilocos Norte.
- **Up to 3.5 m**: The remaining seaboard of Ilocos Sur; the seaboards of northern La Union, Zambales, and Lubang Islands; the western seaboards of Pangasinan and Bataan**.**
- **Up to 3.0 m**: The western seaboards of Cavite, Batangas, and northern Occidental Mindoro; the remaining seaboard of Ilocos Norte; the southern seaboard of Bataan; the northern and western seaboards of Kalayaan Islands.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

**Up to moderate seas over the following coastal waters:**

- **Up to 2.5 m**: The western seaboard of northern Palawan including Calamian Islands; the eastern seaboard of Davao Oriental; the remaining seaboards of Babuyan Islands and Kalayaan Islands; the remaining western seaboard of Occidental Mindoro.
- **Up to 2.0 m**: The seaboards of Isabela, Romblon, Caluya Islands, Cuyo Islands, Antique, Surigao del Sur, and Davao Occidental; the western seaboards of Burias Island and Negros Occidental; the remaining seaboards of Davao Oriental, Pangasinan, and La Union; the remaining western seaboard of mainland Palawan.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

**TROPICAL CYCLONE BULLETIN NR. 4**
**Tropical Depression PILANDOK**
Issued at 5:00 AM, 31 August 2026
Valid for broadcast until the next bulletin at 11:00 AM today.

**TRACK AND INTENSITY OUTLOOK**

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- PILANDOK will move generally north northwestward over majority of the forecast period. It is forecast to exit the Philippine Area of Responsibility (PAR) by Wednesday (02 September) evening or Thursday (03 September) early morning. This tropical cyclone is less likely to make landfall over the country and will remain far from the Philippine landmass. The forecast track is highly uncertain and may change in the succeeding bulletins.
- PILANDOK is forecast to maintain its strength over the next 24 hours and may briefly intensify into a tropical storm by tomorrow (01 September) afternoon. Afterwards, it is forecast to weaken into a tropical depression by Wednesday morning and will maintain its strength throughout the remainder of the forecast period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
